

# THE NEUROSCIENCE OF LEARNING

3RD ANNUAL  
SYMPOSIUM

14.09.2022

The Institute for Education is pleased to invite you to the 3rd Annual Online Symposium on Wednesday 14th September 2022. It will focus on the emerging field of Neuroscience of Learning – Triggering the Brain for Holistic Development.

This year's Symposium will provide a more comprehensive understanding on why the educational neuroscience should matter to researchers, educators, parents and society and how they can all further contribute to it. It will also explore research on the cognitive processes involved in learning and how the knowledge of these cognitive processes can inform and transform educational practices.

The Symposium is an opportunity for Master and Doctoral graduates, Doctoral candidates and researchers to present their recent work on the theme of Neuroscience of Learning and create synergies between educators and policy makers.

For more information on the event, please visit our [website](#).

Online registrations are now open and participation is free of charge.

Click [here](#) to register for the event.

Further information on the event will be provided closer to the date.

## OUR KEYNOTE & GUEST SPEAKERS
