Deadline: See table below

The Institute for Education (IfE) is offering new educator sessions on Photolanguage starting in April 2024. Photolanguage is a way of expressing oneself and communicating with others, which aims to facilitate self-expression and group communication. This method makes use of photos that are believed to stimulate imagination, memory, emotions and the ability to freely associate to an image.

These workshops aim to:

- encourage self-expression
- foster communication amongst participant educators
- explore the emotional and associative meanings that participant educators attach to the photos they choose and share with the group
- encourage reflection and self-awareness
- promote empathy and understanding among participants
- foster self-care, in order to be able to help and work with others.

These sessions can form part of the **Accelerated Progression Scheme**, where each hour of attendance contributes to one hour under the Accelerated Progression Scheme. A Certificate of Attendance will be provided through Blockcerts.

If you are interested in seeing what other educator sessions we offer, kindly access circular [IfE 60/2023](#).
